VENTURE Credit Union Equips Youth for the Future with AI-Focused Technology Camp

VENTURE Credit Union successfully hosted its annual **Youth Technology Camp**, held from July 15 to 18, 2025, at the Lisas Gardens Community Center, Couva. Under the theme **"AI Explorers: "Unlocking the Future of Technology,"** the camp offered a unique learning opportunity for children ages 12 to 17 to dive into the world of Artificial Intelligence and emerging tech.

In collaboration with education technology provider **Cyber Square**, the camp featured four days of interactive sessions where students explored AI concepts, built smart systems, and learned about ethical computing. Through project-based learning and hands-on experiments, participants developed critical thinking, coding, and problem-solving skills in a fun and supportive environment.

Certified Sampson, local tech entrepreneur and digital creative, surprised campers as the guest speaker during the closing ceremony, sharing his personal journey and encouraging them to embrace curiosity, courage, and lifelong learning.

The initiative was spearheaded by the **VENTURE** Education Committee, with the full support of the Board of Directors, Executive Management, and a dedicated team of assistants and volunteers. The Credit Union continues to position itself as a champion of youth development and digital literacy in Trinidad and Tobago.

"We believe in equipping our youth with the tools to succeed in tomorrow's world. This camp is not just about technology, it's about unlocking potential," said Hakeem Jordan, Education Committee Officer.

The event concluded with a graduation ceremony, awards presentation, and positive feedback from parents and participants alike.
