VENTURE Credit Union Launches Free E-Library to Empower Members Through Knowledge

Couva, Trinidad: **VENTURE** Credit Union proudly announces the official launch of its new E-Library, a free digital platform offering members on-demand access to valuable educational resources focused on personal finance, career development, and lifelong learning.

This innovative initiative reflects **VENTURE**'s unwavering commitment to improving the financial literacy and well-being of its members and communities.

*"The **VENTURE** E-Library is designed to meet members where they are, online, on-the-go, and in search of relevant, trustworthy knowledge,"* said **Hakeem Jordan, Education Committee Officer**. *"Whether you're planning for retirement, teaching your children about money, or looking to build a stronger financial future, our E-Library supports your journey."*

Key Features:

- Curated content on budgeting, retirement, youth education, and wellness
- Free access for all members anytime, anywhere
- Mobile-friendly and easy to navigate

The launch follows a successful soft rollout in July to selected staff and members, whose feedback helped shape the platform's final release.

Members can access the E-Library now at: **www.venturecreditunion.com/elibrary**
